Unprecedented customization for brokers

There are separate web portals for administrators, providers, and followers in our Copy Trading Solution. All categories of users can follow their individual goals.

The solution gives brokers tools to adjust a business model and configure different trading conditions for various traders. This way, brokers may accurately specify settings for:

- Pro and Demo accounts;
- Signal providers and followers;
- Accounts with large or small deposits;
- Accounts using robotic trading or high-risks strategies, etc.

The system also may be set to monitor every connected server to ensure all trades are copied appropriately.

Copy trading for traders: modes and settings

Copy Trading Solution allows traders to customize their strategies. It offers various copying modes based on multiple indicators. Signal providers can adjust fees to maximize their earnings. Brokers also have different modes to manage and customize the platform. The solution offers followers different copying modes based on multiple indicators:

- Equity;
- Free margin;
- Multiplication copying;
- and more.

Followers also may turn on proportional copying to equalize the trading risks on small amounts when following the strategy of providers with bigger accounts to mitigate risks and avoid overexposure.
